Better Class of Union Men Re-
fuse to Join in the
Demonstration

(Special to review.)

GLOBE, April 1.—A demonstration which was attempted here today by the Socialists under the management of the Industrial Workers of the World was a complete failure, the better class of union men refusing to participate.

About seventy-five Socialists formed in line and started up Broad street with a red banner carried by three men, notwithstanding warning previously given them by Sheriff Thompson, who made his word good, he and his deputies arrested the banner bearers and lodging them in jail on a charge of attempting to incite a riot. They must remain in jail until Monday when they will have a hearing.

The Socialists harranged a few people tonight from the court house steps and a dance which followed given by them was poorly attended. The great body of working men of Globe have adjured Socialism and preached in the mining camps of the southwest and are deaf to the vapors of the agitator.

Detroit Socialists Riot.—An attempt of a group of Italian Socialists to hold a parade this afternoon, carrying red flags, resulted in a small riot in East Grand Circus park. One hundred and fifty police attacked the Socialists, tore down flags and arrested several. The police destroyed all of the parade's red flags, banners and ribbons.

Buenos Ayres, May 1.—May various workingmen's unions resulted in serious demonstrations. Rioters and the police fought a battle in or wounded.

TURKS TO AID NEEDY SUFFERERS.

CONSTANTINOPLE, May 1.—Following a stirring debate in which the late Villa of Adana and the assistant minister of the interior were attacked as creatures of the Hamidian regime, the chamber of deputies adopted a resolution today that a parliamentary commission be dispatched to Adana to investigate the massacres and to organize a military court to court martial the guilty persons.

One hundred thousand dollars has been appropriated to relieve the distress in that district and the deputies have under consideration a provision to pension the families of those killed or wounded in the recent fighting in Constantinople.

An imperial Hatt was read in the presence of the cabinet and other officials confirming the appointment of Tewfik Pasha as grand vizier and Zia Eddin Effendi as minister of interior. The Hatt briefly referred to the revolution and recent massacres and enjoined the universal observance of the constitution and shari laws. Ali Ghalib Bey, public prosecutor of Saloniki, has been appointed minister of justice to succeed Hasm Pasha.

CALIFORNIANS SHOW JAPS FINE TIME

SAN FRANCISCO, May 1.—With cannons booming salutes and an exchange of official visits the Japanese training squadron, commanded by Rear Admiral Hishida, anchored with in a cable length of Rear Admiral Wilburn's Pacific fleet in San Francisco bay today.

Distinguished representatives of the city, state and federal government were on hand to welcome the Japanese commander and his men when the two cruisers, Aso and Ayan, entered the Golden Gate with an escort of revenue cutters and excursion boats. The collector of the port, lieutenant governor of the state and Mayor Taylor gave the Japanese admiral a cordial assurance of the hospitable reception awaiting his officers and men. Wireless Phone For Balloon

LEO STEVENS AND WIRELESS TELEPHONE ATTACHED TO BASKET OF HIS BALLOON

NEW YORK, May 1.—When Leo Stevens makes his next balloon ascension he will take with him a wireless telephone, through which, he is assured by the maker, he will be able to carry on conversation with persons on the ground, no matter at how high an altitude he may fly. One of the telephones was attached to the basket of a balloon at his factory and Prof. Stevens expects to make the flight with it in a week or ten days.

This is something entirely new in the line of aero-navigation, and as a departure from the usual course will naturally attract the attention of scientists all over the world. If the novel plan of communication with the earth, while flying high in the air, proves to be a success, it is reasonably certain that the apparatus will be generally adopted.

ARIZONA HAS A NEW GOVERNOR

Richard E. Sloan Inaugurated
Yesterday at Territorial
Capitol

Retiring Governor Presented
With Testimonials By
His Associates

(Special to Review.)

PHOENIX, May 1.—It has been announced that Johnny Wright, of Tucson, will take the place of attorney general, taking the place of Elias Clark.

PHOENIX, Ariz., May 1.—A turn of the political wheel of fortune today made Richard E. Sloan governor of Arizona and retired Joseph E. Kibbey to the position of a private citizen for the time being at least.

The inauguration of Governor Sloan was a simple ceremony, amounting to no more than the administering of the oath of office to the new executive at a few minutes before 12 o'clock. There were present in the capitol of the territory many of the prominent citizens from various sections of the territory, who came to Phoenix for the purpose of attending the reception tendered to the incoming governor on Friday evening.

After the oath of office was administered to Governor Sloan he was warmly greeted by those present, including Governor Kibbey and the entire official staff of the capitol building, who have served the territory under the administration which terminated today.

Sloan's Official Family.—Just who is to compose the official family, or staff, of the new governor is yet a question about which there is much uncertainty and speculation. It was predicted today that Fred Cleveland, who has held the position of secretary to Governor Kibbey would be retained in this position by Governor Sloan, but it is asserted by others that Major Watts of Prescott, who has been clerk of the district court at Prescott would be made private secretary.

During the past few days an opinion has been growing here that Governor Sloan would make few changes in the list of territorial officials. While there are some strong men now high in the councils of the Republican party, who have been hoping for a clean sweep of the Kibbey board, it is believed that a more conservative and wiser course will be pursued. The Kibbey appointees, it is argued, have rendered competent service to the territory, have all been appointed and confirmed by a Democratic council and their summary dismissal without any cause other than that of a political faction cause, is hardly expected.

ST. LOUIS, Another development in the strange insurance case in which attorneys for the New York Live Insurance company filed in the Federal circuit court the deposition of a convict in the Auburn, N. Y., prison. The convict declared he was George A. Kimmel, cashier of the Farmers State bank of Arkansas City, Kansas, who disappeared more than ten years ago.

The witness tells a story of having been dragged and imprisoned in a St. Louis rooming house for three weeks. His identity as Kimmel is being sought for the insurance on his life. Kimmel has been declared dead by the St. Louis court, but the United States circuit court of appeals has declared the evidence insufficient and the judgment against the insurance company was reversed.

INDUSTRIAL NUMBER GOES OUT TODAY.

We are sending out this morning the Industrial Edition of the Review. It had been planned to issue the edition in February, but it was impossible to undertake the work in time to do so. That is why the cover page bears the announcement that it is a mid-winter edition. In the edition will be found a vast amount of carefully prepared information concerning Arizona, Cochise county and the state of Sonora, Mexico. We believe our readers will agree that this is the most creditable attempt to make known the advantages to be found in this rich section of the southwest.

BATTLE ROYAL PROMISED ON INCOME TAX

Senatorial Decks Have Been
Cleared for Action Between
Wall Street and People

CUMMINS WILL LEAD
FOR POPULAR TAX

It Is Believed Aldrich, Backed
by Wall Street, Has Con-
gress in His Control.

(Special to Review.)

WASHINGTON, May 1.—The senatorial decks have been cleared for action. An income tax amendment to the tariff bill promises to develop the bitterest parliamentary warfare in the history of the upper house of congress.

The fight practically amounts to a struggle for the supremacy in the Republican party. Senator Cummins' income tax plan is the particular measure that is drawing the fire. Wall Street, through its mouthpiece, Senator Aldrich of Rhode Island, showed its teeth at the first mention of the words "income tax."

Senator Cummins has behind him a small body of insurgents. Aldrich has behind him the powerful ring of Wall Street representatives. To each side the outcome of the feud means everything.

If Cummins can succeed in having his income tax amendment tacked on the tariff bill it will mean he is the strongest man in the Republican ranks because he can not succeed unless he defeats the Aldrich crowd, and to take interest in this feud, President Taft will probably not approve Aldrich's amendment.

However, his sympathy is with Aldrich and his backers. If Aldrich is defeated it may be considered a defeat for Taft.

It is the fact and may as well be stated that Senator Cummins' goal is the presidency of the United States. That is his objective point. If he can defeat the present leaders of his party there is nothing that can stop him from getting the nomination. No one realizes this more than the Aldrich-Taft-Cummins followers.

Would Not Sit on Cummins.—Cummins must be sat upon—he must be sat upon good and hard. That is the word that has gone down the line to the stand-patters. The Cummins amendment is said to have certain flaws. It would not make any difference to the Aldrich crowd whether it is or not, however. They would not permit, if any action on their part could prevent it, any important amendment coming from the Iowa senator.

Aldrich in Control.—Will Cummins defeat Aldrich? Many are asking this question. It is easily answered. Senator Cummins cannot succeed in having his income tax amendment incorporated into the tariff bill. The Aldrich crowd has congress under its control.

There is one move Senator Cummins could make, however, that would win for him the plaudits of the entire west.

If, after seeing that he could not succeed in having his income tax amendment adopted, Senator Cummins would induce his followers to vote for the Bailey income tax amendment, it is the opinion of many that it might be a master stroke for the Iowa senator.

Whether he would do this is the question. Some say he would and some say he would not.

For Bailey Amendment.—The Democrats will vote almost solidly for the Bailey income tax amendment. The Democrats are in good faith in their efforts to give the country such a law which would require the rich to help bear their proportion of the expenses of the government and tend to lighten the burden of the poor.

If the Democrats can not have the Bailey amendment passed at this session they will make income tax an issue at the next session.

3 LIONS FOR TEDDY AND ONE FOR KERMIT

President and Son Bag Four
Kings of the Jungle
Wild

NAIROBI, May 1.—Four lions are trophies of ex-President Roosevelt's camp in the Mau Hills tonight, and the 200 or more native followers are rejoicing with the American party in the celebration of the unusually good luck.

The lions were bagged yesterday and Colonel Roosevelt's mighty gun brought three of them to earth, each one at the first shot, thus one of the president's fondest ambitions has been realized and he is proud too, that the fourth of the jungle kings, fell before the rifle of his son Kermit, who, however, took three shots to kill his quarry. Both father and son are jubilant as if it was their first lion hunt, and so magnificent a kill was far beyond their expectations.

LIST OF STORM VICTIMS GROWS

ATLANTA, Ga., May 1.—The storm which for three days has been sweeping eastward across the southern states and middle west, was passing into the Atlantic ocean tonight. At least 200 persons were killed and perhaps 400 injured. News of 34 more deaths in Georgia was received today. At Savannah, the storm tore through the old town, unroofed many houses, and destroyed much property. Towns in North Carolina and Florida suffered devastation and the casualty list will be incomplete for several days. Property worth probably several million dollars was destroyed.

PARIS RESEMBLES ARMED CAMP

CAPITALISTS IN EAST AFTER FAMOUS MINE

Two-thirds of the Capital
Stock of Lucky Tiger Com-
bination Offered for
\$90 Per Share

DEAL MAY BE CLOSED
AT ANNUAL MEETING

Proposed to Organize Eight
Million Dollar Company to
Own and Work Sonora's
Richest Gold Mine

The El Tigre mine in the state of Sonora is again under a sale option. New York and European capitalists now hold an agreement by which they agree to pay \$3,000,000, half of the amount on August 21 next, and the other half three months later. This deal is being negotiated by Thomas H. Liggett and Fred W. Hellman, prominent mining engineers of New York City. These gentlemen have caused the mine to be thoroughly examined by competent experts and the belief is that the sale of the El Tigre mine will be consummated.

The annual meeting of the Lucky Tiger combination Mining Company, owner of the El Tigre mine, will be held at Douglas on next Friday, according to present notice, but it may be that a postponement of this meeting for a few days will be necessary. At the annual meeting it is confidently expected that the deal for the sale of the property will be closed. The meeting is to be attended by Messrs. Liggett and Hellman, who are representing the purchasers.

Will Organize Company.—It is understood that the intending purchasers will organize a company capitalized for \$3,000,000 for the purpose of buying the mine and installing reduction works equal to the demand of the great and rich bodies which have already been blocked out. It is said that the proposition is to expend one million dollars in the further development of the El Tigre, including the installation of an on-ore reduction plant to treat the milling ores known to exist in the mine.

Purchasers Not Known.—Just who the purchasers of the property are has not been announced yet, but it is said that the new owners will be residents of New York and London. They are said to be the same parties who had an option on the property last year and allowed it to lapse and according to reports they are not strangers to the mining industry. Mr. Hellman, one of the men known in the deal, has had large mining experience in South Africa, where it is said he built the largest mill ever erected on a mining property in that country.

Sale Means \$90 Per Share.—Referring to a talk the major had with the defendant after the latter's return from the Philippines, the witness said he had asked his brother to tell him everything, and Captain Hains replied:

"When I reached San Francisco from Manila I found a big bundle of letters, and after reading them was convinced that something was wrong and hurried east."

The captain then bowed his head in his hands and said:

"I cannot remember—I can't think. This man Annis is making me crazy. Finally he went to the fort and met Claudius, his wife, and she expressed surprise at seeing him and asked him what had brought him back."

"I have come home to protect your good name," the captain told her.

"What do you mean?" she asked him.

"Why, about you and Annis," he said.

"Why, that is all foolishness," he said she told him. "I may have been indiscreet, but Bill Annis and I have been good friends, and that's all."

"Don't worry, little girl," he said to her. "I'll show these people how I trust and believe in you. We will have Billy Annis up to dinner."

Then he next went to the telephone and called Annis up and asked him to come out to dinner. Annis declined but came later and Mrs. Hains, Captain Hains, Annis and Mrs. Annis went to Coney Island in an automobile and were arrested for speeding. Annis drove the car.

The witness said his brother's actions were irrational, while he was telling him about his family troubles. After a brief cross-examination the court adjourned until Monday.

LEAD MINERS STRIKE SPREADS TO BONNE TERRE

BONNE TERRE, Mo., May 1.—The strike of the lead miners in Leadwood spread to this place today when the underground employees of the St. Joseph Lead company quit work. The big mills company here was forced to close and 100 mill men are idle. The strike of the lead miners in Leadwood which the strike is directed, is estimated at \$20,000,000.

On the day of his death he was paid the sum of \$3,500 for an interest he had in claims in the vicinity of Courtland. He was the original locator of the claim on which the Racoon well now stands in the Gleason Canyon, from which the main water supply of the mines and homes in Courtland have been supplied since the camp has been opened up during the past few years.
